1. Personal data

You have to answer **ALL QUESTIONS** in part 1 completely.

You decide which data can be made public by checking the box. Items marked in yellow are required to be exposed.

The more you disclose, the more [fagpoints](#) you earn.

2. Proof of ID (2 pieces!) and verification

You must show your identity card, passport and/or driving licence to the Fagspose photographer. The photographer will check that the above personal details are filled in correctly. (If you choose Video Verification you send a clear photo of your IDs).

The photographer takes a picture of you, with your ID proof. This is necessary for the mandatory verification of actors on sites like xHamster. This photo is not published and is kept securely. (If you choose Video Verification, you have to make this photo yourself).

American porn sites require photos of two of your ID documents (front and back).

They also want a photocopy of these ID documents certified by you. You do this by placing your signature with a blue pen on a photocopy.

Make sure you have this photocopy ready before meeting the photographer.

Due to the excessive risk of identity fraud, we strongly advise against publicly displaying your ID number, citizen service number and signature. Should you nevertheless choose to do so, this could provoke identity fraud and have far-reaching (financial) consequences. Fagspose never publishes these data.
